

Project 1 - Cutout

NAME: _____

Assignment:

You will use Photoshop and the Wacom Tablet to make a cutout from an image of your choice. Be sure the image is of good resolution. Once the cutout is done you will download a background to match it and place it in the image.

Upon completion be sure to name the file **Project 1 - Cutout**. The file should be saved as a .JPG and uploaded to Google Drive.

Grading Rubric

(9 Points Total)

| Categories | 1 point Needs improvement | 2 points Meets Expectation | 3 points Exceeds Expectations | Points |
|--------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------|----------------------------------|-------------------------------------|---------------|
