

Project 2 – Color Theory

NAME: _____

Assignment:

You will use Photoshop to develop 3 separate images.

1. One will demonstrate your understanding of Monochromatic. You will pick a color palette that will be displayed across the bottom of the page. Start with selecting a saturated color of your choice. Then make 3 levels of tints and shades in each direction. These are the only 5 colors you may use in the image.
2. Next will demonstrate your understanding of Analogous Colors. You will choose 3 colors. One will be a primary, one will be a secondary and the third will be their intermediate color. These color swatches also need to be displayed across the bottom of the page. These are the only 3 colors you may use in the image.
3. The third will demonstrate your understanding of Complementary Contrast. You will choose 2 contrasting colors and produce an image. The color swatches should appear across the bottom of the page. You may use a neutral color such as gray, black, or white in this image.

All three of these images need to be placed together in a final composition to be turned in. This composition Should have a neutral colored border with labels for each image.

Upon completion be sure to name the file **Project 2 – Color Theory**. The file should be saved as a .JPG and uploaded to Google Drive.

Grading Rubric

(18 Points Total)

| Categories | 1 point Needs improvement | 2 points Meets Expectation | 3 points Exceeds Expectations | Points |
|--|------------------------------|-------------------------------|----------------------------------|---------------|
| <p>Project is Properly Named and Saved Image should be named Project 2 – Color Theory, and saved as a .jpg</p> | | | | |
| <p>Image Color Swatches Color swatches need to be included at the bottom of each image</p> | | | | |
| <p>Image -1 An understanding of Monochromatic is achieved</p> | | | | |
| <p>Image -2 An understanding of Analogous Colors is achieved</p> | | | | |
| <p>Image -3 An understanding of Complementary Contrast is achieved</p> | | | | |
| <p>Final Composition All 3 images are combined in a final composition which includes a border and labels for each image</p> | | | | |
| <p>On Time Project needs to be handed in on time -2 points for each day it is late</p> | | | | |
