

Project 3 – Photo Collage

NAME: _____

Assignment:

Using Photoshop you will combine at least 4 photos. Tools you will learn to use include Layers, Layer Styles, Blending Modes, Layer Opacity and Masking. The completed project should appear as one image, not four separate images placed together. All images must fit together to produce an overall theme.

Upon completion be sure to name the file **Project 3 – Photo Collage**. The file should be saved as a .JPG and uploaded to Google Drive.
